Pow Patrol
Crawfish
Miles: 4.3
Ascent: 35’
Descent: -2,659’
High: 4,314’
Low: 1,689’
This is the classic shuttle run of Crawfish. You miss the top mile+ by not ascending Knott, but you get the best of what this rowdy, fast, tight and technical trail has to offer. The trail can be accessed at two other lower points on road 2263-717 and the bottom access point sees the most shuttle action.

4/3/15 - I checked out the trail today and despite previous rains the dirt is in perfect condition! Have fun!
3/23/15 - It's a little slippery out there, careful not to drag brakes in corners.
12/20/14 - Snow on trail, you don't want to be here!
